

## Volunteer Officer Report March 2019

Michael Barton – School of Engineering Rep

What has been worked on in the past month?

Module evaluations have been analysed and lecturers have been reminded of best practice so hopefully they should take students feedback on board.

Successes from the past month and any Reps Wins

Discussions on getting study spaces integrated in INB mean we shall hopefully see implementation by the next academic year.

Plans for next month

On the run up to the end of the year I plan on standing by for any issues with assignments and exams so that they can be rectified asap.
