

University of Lincoln Students' Union Volunteer Officer Report

28.3.18

Postgraduate Taught officer

What has been worked on in the past month:

This month I attended academic rep reception and a program leader lunch for the College of Social Science. Both of these events were a great opportunity to network and give some feedback to the SU too. Both were an enjoyable experience especially with the event being success focused.

Following on from last month's report, I met back with the PGT rep that attended the conference in Leeds. She stated that it was very interesting but somewhat complex conference. It was great to hear some of the points they put across.

Additionally, at the beginning of the month, Bradley (PGR officer) and I ran a social movie and pizza social event for PG reps to thank them for their hard work. It went down a treat and everyone had a great time ☺ We hope to do this again in the future.

Successes from the past month:

Welcome week and confirmation of offers, which I met with staff about in October/November, has been amended for the next cohort of PGs – woohoo!!

Whilst not my success in particular, it is of importance to celebrate the success that the PG review motion was passed at the NUS conference! Huge news!!

Plans for next month:

To meet with PG student engagement champions.

To attend the conference on the 21st April and report back any important points.

To enjoy the SU awards!!
