

School Officer Report: January

Harry Levey

1 Positives

1.1 Course Reps

- 1.1.1. Once again, Course Rep have been working hard and are effective in engaging with staff and students alike. I am pleased with their progress and the efforts they have made.

2 Working on

2.1 Data Protection

- 1.1.2. I am organising with Paula O'Brien to deliver data protection training, in advance of next year's law change, so that course reps are well equipped to conduct their roles without accidentally or unknowingly breach the data protection law.

2.2 Business School Clothing Competition

- 1.1.3. Continuing work on the idea of clothing school to be sold within the business school was proposed at the subject committee meeting. This is a fantastic opportunity for students to gain a sense of belonging and identity which has long been lost from the business school. A competition feels like an appropriate way to bring students together and engage directly with their school as well as gaining a sense of ownership – 'for the students, by the students' – mentality. This is currently ongoing with the aim of completion and pitching within the next Month.

3 Negatives

- 3.1 Currently no negatives to report.
